Minimum of 45 hours of 3000 & 4000 level courses is required by the university to graduate.

68 total hours required for major

Interdisciplinary electives are required in a 2000 level and above class. There are a variety of classes to select across the university.

We suggest selecting a minor in the University to contribute to the electives to get to 120 credit hours for graduation.

Students can double major or dual degree with this major.

*To meet the requirements for graduation, students must complete all General Education, University and major requirements, and complete at least 120 credit hours.
